# K6.0

kinesiology tape

The worlds first: 6 metre roll - retail kinesiology tape

K6.0 kinesiology is an elastic cotton blend, acrylic coated, latex-free tape. It helps take pressure off overused muscles, reduce swelling and alleviate pain from injuries. Acting as a second layer of skin d3 K6.0 offers support to tired muscles and works with actual skin to increase blood flow and fast-track healing in applied areas.

# athletic sports tape X

tape of choice for performance  
and adaptability of uses.

Athletic tape is similar in many respects  
to Rigid tape but deliberately designed  
to be a lighter weight and with less tensile  
strength. A premium grade product ideal  
for athletes who are not heavyweight  
performers and seek to maintain agility.

# LightRIP

Spandex  
eab

perfect for any sports or home  
medicinal environment

Light-RIP Spandex EAB is a lightweight elastic adhesive bandage made from a latex-free woven cotton spandex and zinc oxide adhesive.

A highly versatile fixation bandage that can be hand-torn and is best used as a compression wrap, joint support or relief dressing in the case of contusions, sprains and bruising.

# madi edge<sub>eab</sub>

a high-quality premium performance tape when only the best will do

Madi Edge (EAB) is a premium quality tightly-woven, latex-free adhesive backed cotton fabric which allows medium stretch but has a high tensile strength component and is very hard-wearing. Hypoallergenic, tough and durable.

# kob bandage

unique weave and 4-way stretch for ultimate comfort, support and performance

KOB bandage, commonly known as AFL tape, is the go-to brand for some of the most demanding sports and athletes requiring durability, and high levels of elastic strength across a wide range of movements for all body parts. KOB bandage is a high-performance elastic adhesive bandage (EAB) tape combining comfort with strength and high levels of athletic joint and muscle support.

# mouth guard

double  
dual layer gel

## anti-shock | dual layer - double gel mouth guard

you only get one set of adult teeth, so oral protection in contact / collision sport is essential. Mouth guards strongly protect from the impact forces during contact situations with others or the ground

designed for  
comfort, fit and  
protection

double gel coat  
interior effectively  
moulds to upper teeth

perfect fit prevents slipping  
and dislocation during use

exceptional value  
to consumer

high density  
skeleton outer  
absorbs front &  
side impacts

## custom-made mouthguard range - design your own!

Made from the same high-quality double gel anti-shock material as the standard d3 mouthguards the d3 custom-made mouthguard range offers all of the same benefits of oral protection and concussion support but also helps promote your school or club and encourages a greater sense of belonging and community. Two colour design with multiple bespoke logo options

on the mouthguard and case will give your players the confidence and 'wow' factor they deserve and helps keep them safe.

Custom designed mouthguards also represent a great opportunity for a local business to sponsor grassroots sport and market themselves to the local community, or an excellent fundraising opportunity for clubs/schools to sell themselves.

**Minimum order quantities apply. Contact [sales@d3tape.com](mailto:sales@d3tape.com) for details.**
